WALLSTONES

QUIMBY MOUNTAIN NATURAL WALLSTONE

This wallstone has been aged by mother nature for millions of years. The stone faces are rounded to match the weathered brown, grey, and blue colors. Ideal for single-sided retaining walls because the sizing of this stone is larger than some of our other wallstones.

- Stone Heights: 3-18"
- Stone Width: 4-24"
- Stone Depth: 4-24"
- Sold by the one-yard pallet (approximately 3200#)

QUIMBY MOUNTAIN SMALL WALLSTONE

This wallstone is an ideal match to our Natural Wallstone if you want to add some smaller pieces to the mix. The stone faces are rounded to match the weathered brown, grey, and blue colors. Best used in combination with natural walls and small planters.

- Stone Heights: 1-4"
- Stone Width: 4-10"
- Stone Depth: 3-8"
- UOM: Sold by the pallet, 1/2 yard pallet

WALLSTONES

GREEN MOUNTAIN SPLIT WALLSTONE

This wallstone comes from the Green Mountains of Vermont and is guillotined to expose the true, beautiful green and blue colors of the stone. The faces tend to have clean edges and are suitable for formal or rustic wall landscapes, including large and small retaining walls and smaller double-sided sitting walls.

- Stone Heights: 3-14"
- Stone Width: 4-18"
- Stone Depth: 3-14"
- UOM: Sold by the one-yard pallet (approximately 3200#)

QUIMBY MOUNTAIN SPLIT WALLSTONE

Straight from the Mountains of Vermont, our Quimby Mountain Split Wallstone is guillotined to open the stone up and give you the true color of the stone. These faces tend to have clean edges and suit either or formal or rustic wall landscape. Mostly greys and blues with browns mixed in. Perfect for all your retaining wall needs. The sizing makes it a fit for a large retaining wall or a smaller double sided sitting wall.

- Stone Heights: 3-14"
- Stone Width: 4-18"
- Stone Depth: 3-14"
- UOM: Sold by the one yard pallet (approximately 3200#)

FLAGGING

QUIMBY MOUNTAIN FLAGGING

This flagging is made from stones from across New England, each standing the test of time of long, hard winters. Each piece is irregular in shape and ideal for patios, walkways, and pool decks/surrounds.

STANDARD PATIO STONE

- Thickness: 2-4"
- Size Range: 1-4 SF
- UOM: Sold by the 100 SF pallet

LARGE PATIO STONE

TO OUR VALUED CUSTOMERS

It is with great pleasure that we write to you today to introduce ourselves and share our mission. Our names are Jason and Heath Blackburn, and in 2017, we founded Black River Quarries with the aim of bringing stone straight from Vermont's pristine mountains to homes and landscapes throughout the United States.

Over the years, we have remained steadfast in our commitment to this vision, while also expanding our product mix to include a wide range of stone types from New England and the Berkshire Mountains of New York. As part of our continued efforts to enhance our offerings, we are thrilled to announce that we will be adding custom cut patio stone and steps to our product line in the coming year.

With a collective 45 years of experience and expertise in the field of stonework, our team is dedicated to helping you find the perfect stone to bring your unique vision to life. We are incredibly grateful for the unwavering support and partnership of our loyal customers and partners, who have played a crucial role in our growth and success over the past six years.

We take great pride in serving you, and we are committed to meeting and exceeding your expectations in the future.

Warm regards,

Jason and Heath Blackburn
